

Dear FCC, I am writing to express my support of K-Love radio station, which is heard in my area on an FM translator. I receive great benefit from being able to listen to this station. If K-Love were to be displaced by an LPFM broadcaster, my husband, three children and I would be without a vital source of encouragement. Christian radio makes sense as we strive to build strong communities. The Christian values of love and service to others are in the public's interest. Thank you for listening to my comments!
